
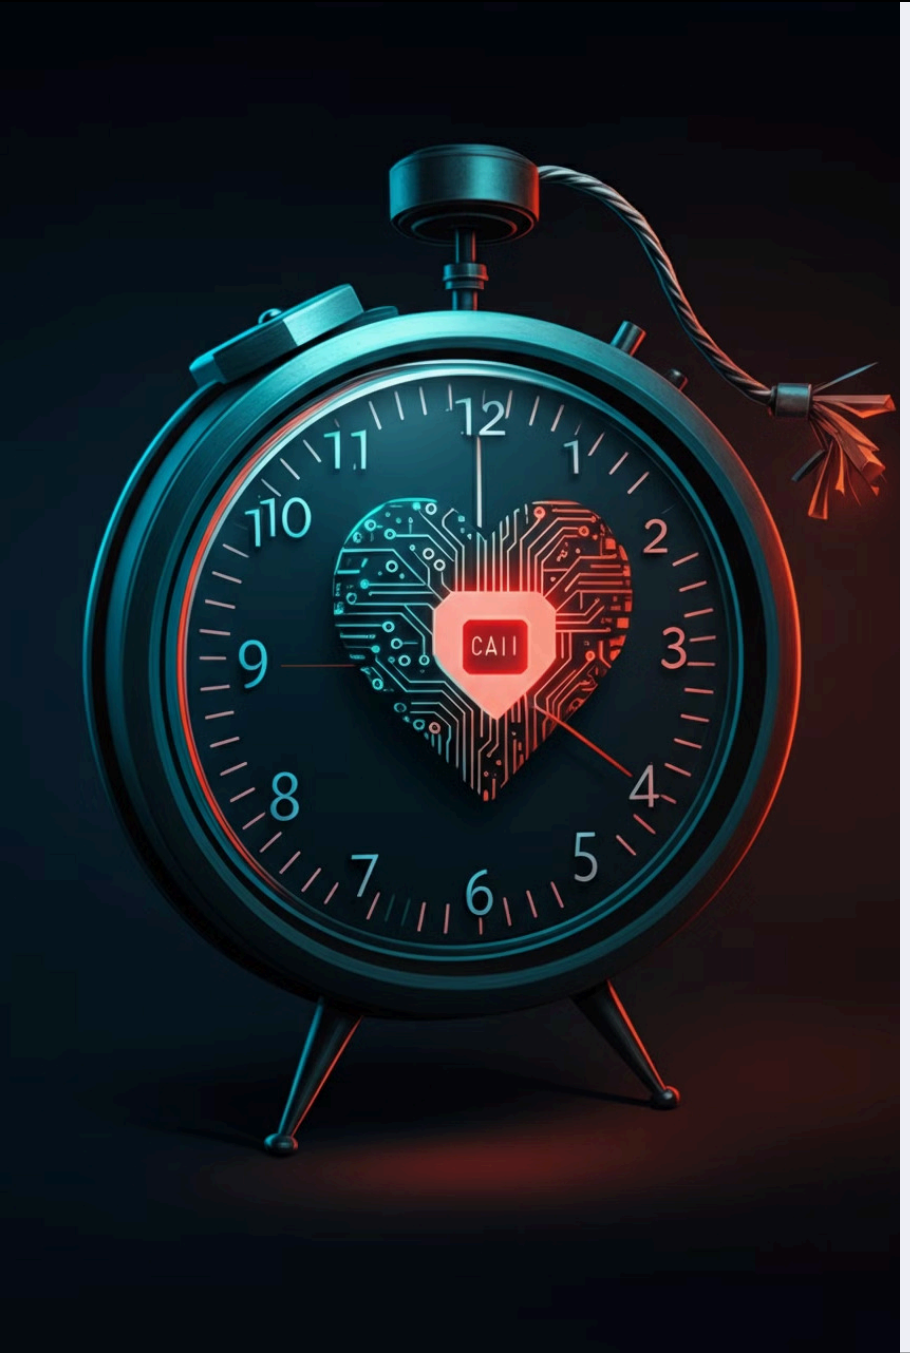
Revolutionizing Home Care with AI

Caire unites AI and Care in a powerful platform for home care companies that want to become more efficient and more human.

by Björn Evers



Home Care at a Breaking Point

Confronting the Looming Financial Crisis in the Swedish Elderly Welfare System

25%

over 65 in 2030

40%

spent on administration

40%

more staff needed in 5 years

4.2B SEK

annual waste from travel time

> ***Digitalization is not a choice – it's a necessity.***

Navigating the Challenges of Elderly Welfare

Inefficient scheduling

Caregivers dedicating just 60% of their time to providing actual care – a critical concern.

Drowning in Documentation

Manual errors and time-consuming processes

Scattered Systems

No comprehensive solution across Sweden

Stressed Care Recipients

Lack of continuity and high anxiety

Overworked Providers

High staff turnover, no clear overview

Caire Transforms Home Care

Caire is an AI-powered platform designed to revolutionize home care companies by automating processes and improving efficiency

AI scheduling

Optimized scheduling and routing in real-time based on staff skills, availability and location, matching caretakers.

Integrations

Connection to existing home care systems including municipal systems. Never touch data twice approach.

Automated admin

Streamline your workflow and minimize mistakes.

More time for care

Experience tailored care and elevated quality service.

Real-Time KPI Tracking

Monitor revenue, expenses, and staff efficiency in real-time.

AI-Driven Forecasting

Leverage AI to predict future resource needs and optimize operations.

Mobile staff app

Stay informed with up-to-the-minute scheduling and documentation updates.

Care recipient app

Explore the schedule, plans, caregiver info, documentation, and history all in one place.

> **Elevating home care through delighted caregivers and effective resource utilization, leading to satisfied caretakers, financial fulfillment, and a balanced welfare ecosystem.**

The story behind Caire

From Tech Leadership to Healthcare Innovation

1

Tech Leadership Legacy

Over two decades transforming global tech companies, pioneering digital solutions that changed industries

2

Personal Wake-Up Call

Through his own healthcare journey, Björn experienced firsthand the urgent need for digital transformation in home care

3

Mission-Driven Innovation

Now collaborating with home care leaders to create AI solutions that enhance both efficiency and human connection

Born from personal insight and powered by decades of tech expertise, Caire is building a future where AI handles the complexities of care coordination, freeing caregivers to do what they do best: provide warmth, attention, and exceptional care to every individual they serve.

> **Technology should amplify humanity, not replace it.**

Why Caire Stands Alone

Traditional solutions are fragmented and outdated, while Caire delivers comprehensive transformation:

Current Swedish Solutions

Carefox, alfaecare, Quinyx, Parasol, phoniro. Combine Pulse and others offer basic scheduling tools but lack integrations, AI capabilities and real-time optimization

International Platforms

Global solutions like Caresmartz360 are expensive to implement and not tailored for Swedish regulations

Caire's AI-Driven Platform

Real-time scheduling optimization and intelligent routing, with automatic updates that save time and reduce costs

Complete Integration

Seamless connection with existing home care systems and real-time intelligence dashboards ensure compliance and drive efficiency

> **Why It Matters:** Caire isn't just a tool—it's a transformation. We combine cutting-edge AI with human insight to deliver a smarter, more efficient, and more personal home care experience.

Unleash the Potential: A Vast Market Awaits Transformation

1

TAM: 78B SEK

Home care & assistance in Sweden

2

SAM: 29B SEK

Private home care (8B SEK) + private assistance (21B SEK)

3

SOM: 194M SEK/year

Private home care (38M SEK) + Assistance (156M SEK)

1

Starting with Home Care

- **38M SEK/year**

  16,000 employees x 200 SEK per month x 12 months = **38M** SEK/year

2

Expanding to Assistance

- **194M SEK/year**

  65,000 employees x 200 SEK per month x 12 months = **156M SEK/year + 38M SEK/year**

3

Scaling to Partnerships & Nordic

- **1B+ SEK/year**

  Unlocking the full **78B SEK** swedish market by collaborating with municipalities, and expanding to the nordic countries.

"Healthcare is the Industry that will Benefit the Most from AI"

AI as Force Multiplier

Healthcare faces an unprecedented staffing crisis that demands immediate solutions.

Big Ideas in Tech for 2025 highlights how specialized AI models will revolutionize healthcare staffing.

Critical Market Pressure

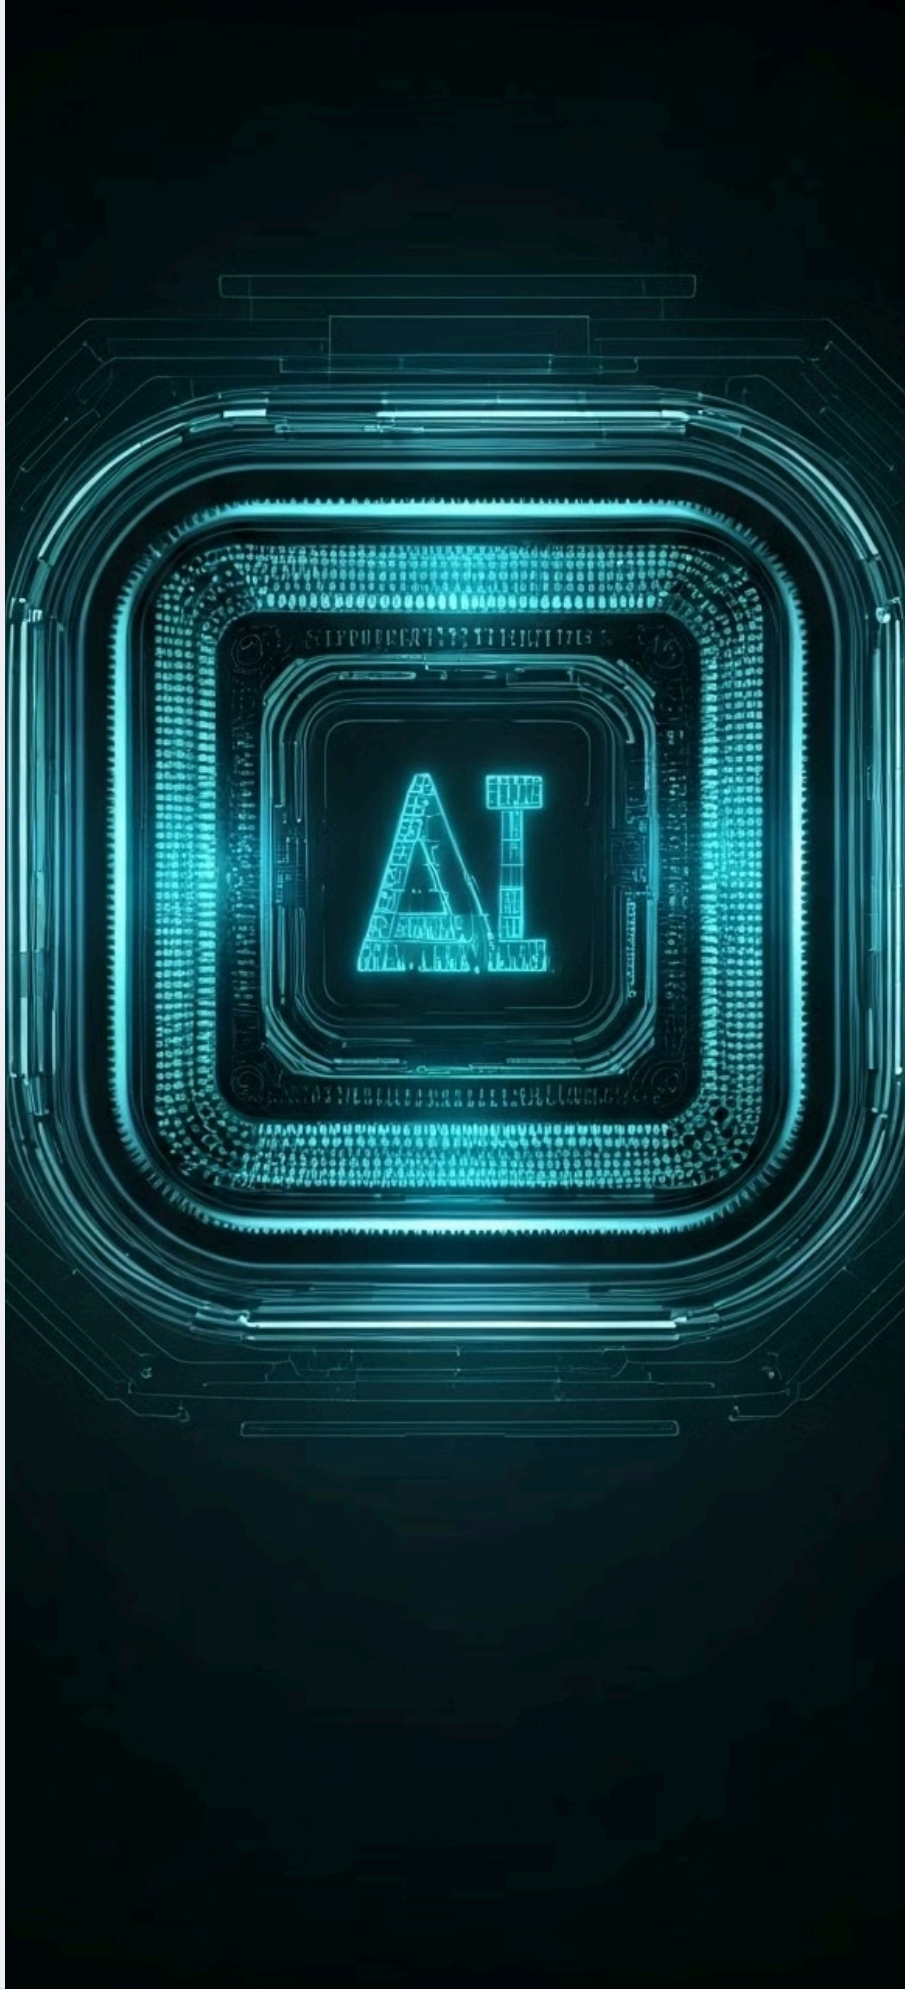
Healthcare systems face a perfect storm: increase in elderly population by 2030, 30% staff shortage in critical roles, and healthcare costs rising at 2x the rate of inflation.

Prime Market Timing

Advanced AI solutions are ready for deployment today. Healthcare providers are actively seeking AI partners to drive digital transformation - creating an immediate opportunity to capture market share.

First-Mover Advantage

Industry analysts project 2025 as the breakthrough year for healthcare AI, with the first verticalized AI companies reaching billion-dollar valuations through specialized solutions.



Subscription Model Drives ROI for Home Care Businesses

20K

Start-up fee

One-time cost in SEK

200

Monthly fee

Per employee in SEK

6K

Minimum fee

Per month in SEK (30 employees)

+Services

Upgrade with premium services . AI-optimized staff pool, website development & maintenance.

> Maximize Your Savings: Slash administrative costs by 10%, supercharge staff efficiency by 5%, and enjoy **monthly cost savings of 300K SEK**

Strategic Roadmap

1 **December 2024**

- Launch of Caire.se

2 **Q1 2025: Building the MVP**

- Partnership with Nova Omsorg & Kvalitativ Hemtjänst

3 **Q2 2025: Beta Launch**

Pilot with 2-3 providers & 300-400 caregivers.

4 **Q3-Q4 2025: Official Launch in Stockholm**

15 providers in our network & 1,000 caregivers.

5 **2026: National Growth**

Launching AI agent sales with target of 100 partners & 3,000 caregivers.

6 **2027: Market Leadership**

300 partners, 10,000 caregivers.

7 **2028: Nordic Expansion**

Enter assistance services and Nordic markets

Empower Small to Medium Home Care Businesses

Driving Growth with AI-Powered Marketing and Sales Outreach Tactics

1

Demonstrate Value Through Pilot Results

Showcase proven ~10% cost savings from successful pilot implementations

2

Target Ideal Customer Segment

Focus on small to medium sized businesses lacking internal IT capabilities

3

Leverage Data-Driven Outreach

Utilize public data sources to create personalized sales initiatives

4

Deploy AI Marketing Engine

Execute multi-channel campaigns across Google Ads, LinkedIn, lead magnets, and affiliate networks

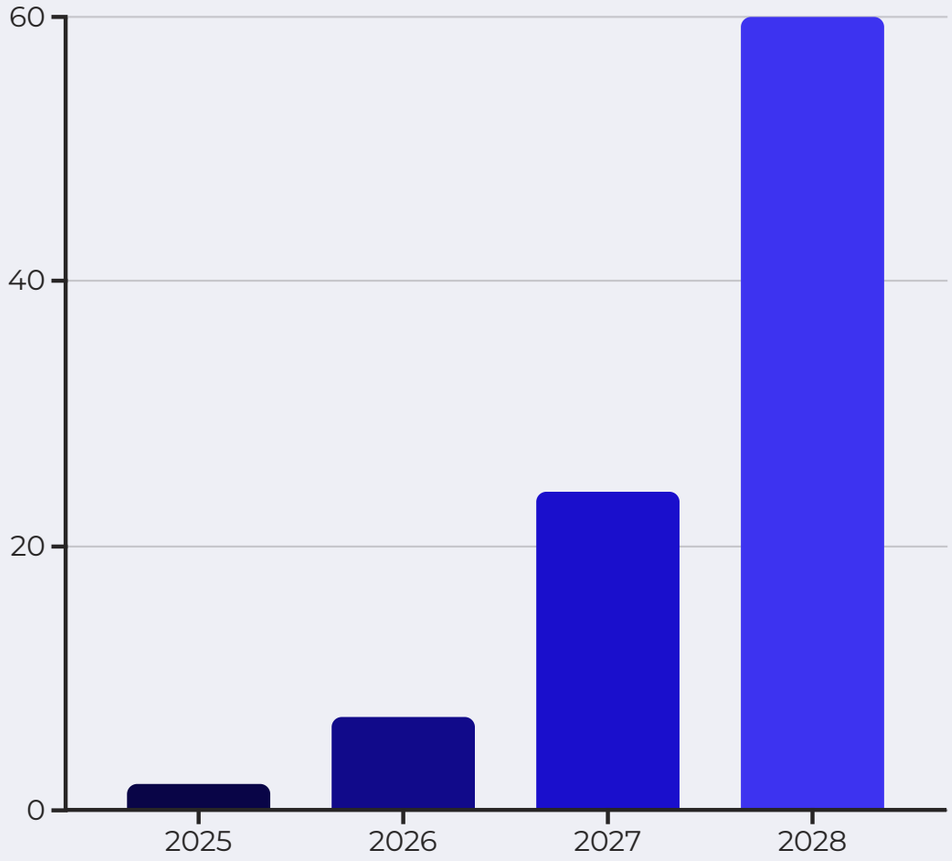
5

Provide AI-Enhanced Value Add

Offer AI-built customized websites as high-value entry point for Caire platform adoption

Financial Projections & Cost Structure

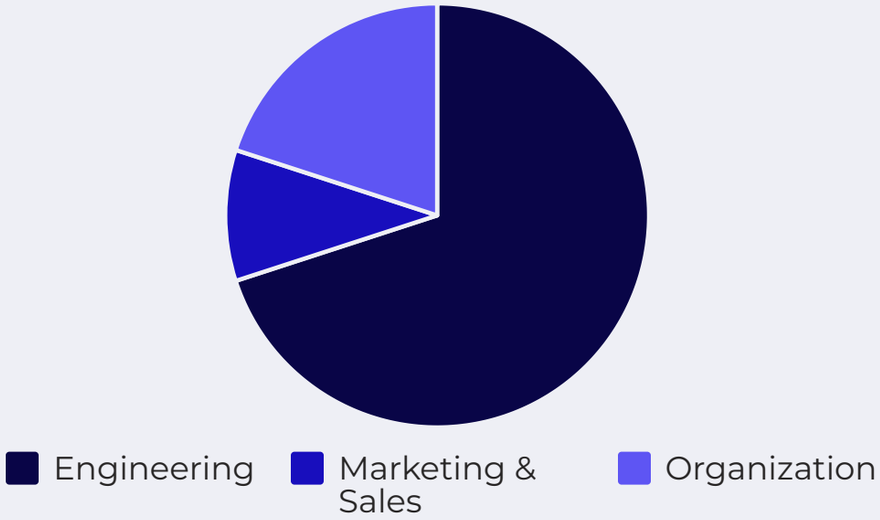
Projected Revenue Growth



Our financial model shows strong year-over-year growth, reaching 60M SEK in ARR by 2028. This trajectory is driven by increasing market penetration and expansion of our service offerings.

Strategic Cost Distribution

At Caire, we've designed our business model for maximum efficiency and scalability. By leveraging advanced AI technology across our operations, we maintain a lean organizational structure while delivering exceptional value. Our strategic focus on engineering ensures continuous product innovation and improvement, while our AI-driven approach to sales and marketing enables highly efficient customer acquisition and growth.



Unlock the Power of Network Effects

Data drives value

Experience the exponential impact of the Caire platform: more partners, caregivers, and care recipients generate richer data, fueling precise AI and delivering greater value to customers.

Sticky

Our deep integration with partners' operational excellence and internal systems ensures a seamless experience, making switching a challenge.

Strategic partner

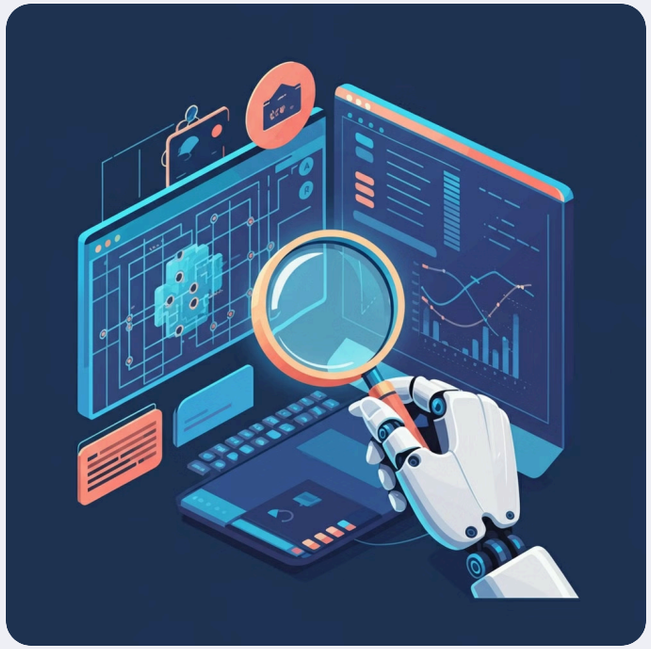
Experience our top-tier services, including AI Staff pool seamless integrated to caire, customizable modular integrations, expert web development, and ongoing maintenance. We are the strategic partner of choice.

Exceptional Value

Harnessing the power of AI in all our operations drives cost efficiency, allowing us to provide unparalleled value to our customers.

Navigating Challenges

Overcoming Challenges: Ensuring Smooth Deployment and Scalability of Our AI-Driven Home Care Platform



Healthcare Data Compliance

Embarking on our Beta launch with a clear vision: Achieving complete regulatory alignment through the successful implementation of compliant data handling protocols

AI Algorithm Reliability

Collaborating with top AI experts in scheduling and routing optimization to drive cutting-edge algorithm development and ongoing validation of AI predictions

Public Sector Adoption Barriers

Strategically prioritizing agile private healthcare providers for initial focus to establish compelling case studies before expanding into municipal markets

Discover what lies ahead and become a part of the future of home care

Let's Connect

Step into a new era with our AI-powered solution, optimizing your home care operations and delivering cost savings of up to 10%.
